DETAILED ACTION

Response to Amendment

1. This communication is in response to the amendment filed on 7/28/05.
Accordingly, Claims 1-12 and 15-49 are currently pending in the application.

Allowable Subject Matter

2. Claims 1-12 and 15-49 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

3. Claims 1, 15, 24, 35, 46, and 48 are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose **that the output of the hardware being the incoming packet encapsulated by one or more protocols and, wherein the hardware includes protocol header insert units and an Ethernet frame CRC unit.** It is noted that the closest prior art, Sasson et al. (US 6728261) shows a system and method of implementing interworking function between ATM and IP protocols and that the interworking function provides a mapping and encapsulation functions necessary to ensure service provided to protocols is unchanged. However the stated prior art fails to disclose or render obvious to the above underline limitations as claimed.

4. Claims 36, 47, and 49 are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose **that the**

hardware be adapted to calculate additional information for outgoing data, the additional information including at least one length field and at least one error check field, wherein the hardware includes protocol header insert units and an Ethernet frame CRC unit. It is noted that the closest prior art, Sasson et al. (US

6728261) shows a system and method of implementing interworking function between ATM and IP protocols and that the interworking function provides a mapping and encapsulation functions necessary to ensure service provided to protocols is unchanged. However the stated prior art fails to disclose or render obvious to the above underline limitations as claimed.
